Your wedding day is one of the most important days of your life and it is important to have a photographer there with you to capture the essence of your special day. Your photographic experience needs to capture the true moments of such an unforgettable day and needs to be just as enjoyable as the wedding itself.

It is important we capture everything about the day you would like and we do recommend you forward us a list of the particular shots your day would not be complete without. Think carefully to be sure any of the most important are not skipped over during the magic of the day. It is easy to forget something if it hasn't previously been written down.

We aim to achieve packages which are affordable and truly give you memories of your wedding day you will treasure forever. We can customize any package to suit your budget and needs.

Pre Wedding Consultation

We would love to meet the newly wed to be couple and offer a photography package which is individualized and unique to yourself. Throughout this meeting we can offer ideas and suggestions and listen to any requirements which you have for the day. We can offer you suggestions and give our advice for helping your day run smoothly. We strongly recommend a pre wedding consultation to ensure we meet all your wedding day requirements.

Pricing

All packages have been priced to suit any wedding budget. Albums can be included in the package or can be done at a later date if the budget isn't so flexible. Albums can vary from digital to slip in and priced accordingly. All albums have an option of covers to ensure you are receiving what you require.

If you have any queries please don't hesitate to call and we will be happy to run through any questions you may have.

Kind regards

Katrina Marek
